Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 September 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Election/Restriction

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, drawn to a method of producing a cell specific retroviral vector.

Group II, claim(s) 10, drawn to a retroviral vector that encodes a single chain antibody fragment and is interpreted as a product-by-process.

Group III, claim(s) 11-13, drawn to "the use" which is interpreted to be a method of administering a retroviral vector to achieve therapeutic result.

Group IV, claim(s) 14-18, drawn to a retroviral packing cell line.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical feature linking groups I-IV appears to be the single chain antibody expressed on the surface of a retroviral particle. Dornburg R.C. (WO 95/73846, se IDS) discloses inserting a single chain antibody sequence into a retroviral envelope (chimeric envelope) in order to change the cell type that may be infected with the retroviral particle (see summary of the invention page 4 and figure 1). The single chain antibody is present on the surface of the viral particle. Therefore, the technical feature linking the inventions of groups I-IV does not constitute a special technical feature as defined by PCT Rule 13.2, as it does not define a contribution over the prior art.

Art Unit: 1648

The special technical feature of group I is considered to be a method of producing a retroviral particle that contains a single chain antibody. The special technical feature of group II is the retroviral particle with a single chain antibody on the surface; the claim is interpreted as a product-by-process claim. The special technical feature of group III is considered to be a method of using the retroviral particle for the purpose of treating an ailment. The special technical feature of group IV is considered to be a retroviral packaging cell line. Accordingly, groups I-IV are not so linked by the same or corresponding technical feature as to form a single general inventive concept.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
